

I wish to say that it is very important that K-Love continues to be broadcast in the Klamath Falls area over FM translators. My family listens to K-Love every single day. All of my Christians acquaintances enjoy the programming on K-Love and find its uplifting. Many poeple I know send monetary support to fund operation of K-Love because we find it vital for our community. It is the only station in the area that provides 24 hour contemporary Christian music. As a listener, that is all that I want to listen to and what I want my children to listen to. K-Love also reports news without tramatic details which I prefer my children not hear repeatedly through the day. It would be a great loss to have K-Love displaced and our family would not tune to a commercial station. Thank you for the opportunity to comment.
